## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-3, 5-10, 12-22 rejected under 35 U.S.C. 102(a) as being anticipated by Suddaby.

Suddaby discloses a method of fusing two adjacent bones comprising:

- An adjustable spinal fusion implant;
- An expansible insertion tool that spreads its jaws to distract the implant;
- Removing the tool from the implant;
- Packing the implant with bone;
- Inserting a reinforcing member 40; and
- The implant has a wedge shape.

### *Allowable Subject Matter*

3. Claims 4, 11, and 23-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
